

Transfer Credit Process

- Only credits earned at a regionally accredited post-secondary institution may be considered for transfer.
- Transcripts will be evaluated after the Admissions acceptance process has been completed.
- Learning Support/Remedial/Developmental Studies courses DO NOT TRANSFER.
- Full credit is typically awarded for courses taken at another Technical College System of Georgia institution.
- Grades must be a "C" or better (2.00 on a 4.00 scale).
- Credit hour value of the transferred course must equal the credit hour value of the Lanier Technical College course.
- When requested, it is the student's responsibility to supply the Registrar's Office with the documentation necessary to evaluate the applicable courses (course syllabus, catalog course description, etc.).
- Students will be notified of the results of the transfer credit review by e-mail. Please make certain to notify Lanier Technical College of any changes in your e-mail address as soon as possible.
