Transfer Credit Process

- Only credits earned at a regionally accredited post-secondary institution may be considered for transfer.
- Transcripts will be evaluated for Transfer Students after the Admissions acceptance process has been completed.
- Learning Support/Remedial/Developmental Studies courses do not transfer. If the Learning Support course(s) were taken at another Technical College System of Georgia institution if completion of the required modules can be documented, the student may be exempted from the Learning Support requirement at LTC. The student is responsible for providing the module completion information to the Registrar’s Office.
- Full credit is typically awarded for credit courses taken at another Technical College System of Georgia institution.
- Grades must be a “C” or better (2.00 on a 4.00 scale).
- Credit hour value of the transferred course must equal the credit hour value of the Lanier Technical College course.
- When requested, it is the student’s responsibility to supply the Registrar’s Office with the documentation necessary to evaluate the applicable courses (course syllabus, catalog course description, etc.).
- Transfer Credit will typically be entered in Banner and reflected on the student’s DegreeWorks audit sheet within 10 business days of his or her acceptance to LTC.
