Commission on Colleges

Hello Dr. Sightler,

As you may recall, I recently contacted you to verify that for a program as well as a site, a terminated program can be re-approved with a notification letter if the termination occurred within the past five years.

We have such a case here at Lanier Technical College: we submitted a termination for our Logistics Coordinator TCC program on December 2021, and the termination was approved by the Commission in June 2024 (Case ID SC017365). I have enclosed a copy of the Commission's approval letter.

In response to industry partners' requests, we now wish to re-open the program. This letter is to serve as notification.

I am aware that in the normal course of things, the Commission does not provide a written response to notifications, but am hoping that in a case like this, the Commission will send a letter that we can use to demonstrate it is an approved program: the documents we have now state that the program has been terminated.

Please let me know if you need any further information, or if we need to do anything else on our end to get this approved.

Sincerely,

Joanne Tolleson
